

Love Is Everywhere (Beware)

Wilco

So tangled in the wild
Seeing myself as something more mean
Out in the country
Sadness wants me
Further away from the scene

Right now, right now
Love is everywhere
Right now, right now
Love is everywhere

Where the sunlight grabs the lake
It's frozen in the flames
Beneath the sleeping town
With the riots raining down
It's all yours now
It's all for you

Right now, right now
Love is everywhere
Right now, right now
Love is everywhere

So many things I do
I can't explain to you
Right now, right now
Love is everywhere
Right now I'm frightened how
Love is here, beware

Our love is everywhere
