

# Many Worlds

Wilco

When I look at the sky  
I think of all the stars that have died  
Many worlds collide  
None like yours and mine  
No, not like yours and mine  
And I always cry  
When I look at the sky

No, not like yours and mine  
Not like yours and mine  
And I always cry

When I look at the sky  
I know I'm not the only one  
Alive  
I know I'm not the only one  
Looking up  
At the sky

None like yours and mine  
No, not like yours and mine  
Not like yours and mine
