

Sun's A Star

Wilco

You've seen it all
Turned friends into strangers
But they forget to call
And after all, you felt like hanging

But now you're alone
You didn't wanna be
Watching the TV
Too little, too soon
And there's this song
In a minor key
Hey, how could it be
Such a cloudless tune?

I know there's rain
Falling somewhere, overflowing
Into this trust
We hold without ever knowing

But you
You might be the sun
Orbiting no one
Pulls me closer
Watch it rise
And I
I could be the one
Who stares too long

But if you could see yourself
Just once
The way that you are
Then I believe
That the sun is just a star
