

## Sunlight Ends

Wilco

You're not the kind of city street anyone can cross  
You're the kind of spinning star that only gets you lost

You dance like the dust in the light  
Where the sun comes in  
And I'm following  
Until the sunlight ends

You're not the kind of mountain stream anyone can cross  
You're the kind of flashing sign that only gets you lost

You dance like the dust in the light  
Where the sun comes in  
And I'm following  
Until the sunlight ends

You're not the kind of desert sand anyone can cross  
You're the kind of missing page that only gets you lost  
And you're lost  
And I'm lost
