

# The T.B. Is Whipping Me

Wilco

You all heard the story of whippin' that old TB  
Plunkin' and a singin' whipping that old TB  
We'll I'm hear to tell yah the TB is whipping me

Once I had a mama thought the world of me  
Lord I once had a mama that thought the world of me  
But her love vanished when I took this old TB

I went to see the doctor and he thumped upon my back  
Went to see the doctor and he thumped upon my back  
He say's boy you're travelin' on a one way track

(Tell me the truth doctor)

I went on down the street, found a fortune tellin' man  
I strolled on down the street, found a fortune tellin' man  
I say's boy I know my past, tell me my future if you can

(Tell it to me brother)

My lungs are rattlin' and you ought to hear this cough of mine  
Lord my lungs are rattlin' and you ought to hear this cough of mine  
That dog's gone bug from working overtime

Listen hear pretty mama I know I can't last long  
Lord I know good mama that I can't last long  
You're gonna be sorry after I am gone

(You're gonna miss me honey)
