Dreamland

Wild Belle

Lift this veil of tears from your eyes There's no more use in crying A mighty cloud living in your skies I shot it down last night

Stand up, make your dreams come true
Let me be the one for you
I'll break the chains that bind your hands
I'll take you to my dreamland

I can be your dreamland baby Your sunshine I can be your dreamland baby Your paradise

Pull together with the mother sea Bodies in harmony Magic moon, electricity When you put your arms around me

Nightingale songs linger on and on Always calling out to me Follow me, I know you need And I ain't let make our dreams

I can be your dreamland baby Your sunshine I can be your dreamland baby Your paradise

Rivers flow with honey and gold Drowning all out your misery Anyway the white wind blows You can come home to me

Shine on, may your dreams come true Let me be the one for you I'll be yours to the very end I take you to my dreamland

I can be your dreamland baby Your sunshine I can be your dreamland baby Your paradise I can be your dreamland baby Your sunshine I can be your dreamland baby Your paradise I can be your dreamland baby Your sunshine I can be your dreamland baby Your paradise I can be your dreamland baby Your sunshine I can be your dreamland baby Your paradise Tištěno z pisnicky-akordy.cz
