

Raindance

Wild Cherry

Little darlin', it's been rainin' for a long, long time
Reflections in your eyes shows indecision in your mind
We've got to do somethin' to avoid all this pain
Let's get up on our feet and dance away the rain

Let's do a rain dance
To wash away the blues
Let's do a rain dance
One more chance for me and you
Got to stop all this rain, yeah

Remember days the sunshine grew for me and you
We abused it
Let's think of ways to make it all brand new
Let's not lose it
No reason for goin' insane
We'll dance our way out of the rain

Little darlin', hear the drums beating way down in my heart
They're signaling the skies are clearing, soon we'll see the stars

Let's do a rain dance
To wash away the blues
Let's do a rain dance
One more chance for me and you
Got to stop this rain

Let's do a rain dance
To wash away the blues
Let's do a rain dance
One more chance for me and you
Got to stop this rain

Let's do a rain dance
To wash away the blues
Let's do a rain dance
One more chance for me and you
Got to stop this rain

Rain dance
