## Wild Child

Silly Alex don't think that way

I said I can't hold this in  
So I'm gonna let it out right now  
I want to hold you close  
You're acting like you want to hold you down  
Don't ask me to  
Change the man I am for you  
I said don't ask me to  
Change the man I am for you

Don't get sad, decide to stay  
You're heart is here, your head's away  
The more you cry, the more I know  
I'm certain that you'll let me go

I said oh my God I've got my heart in my hands  
Now my head is so heavy that I can't understand  
Singing oh my golly oh miss me oh my  
I'm afraid that the moon pulled you out with the tide

I said I can't hold this in  
So I'm gonna let it out right now  
I want to hold you close  
You're acting like I want to hold you down  
Alex don't think that way  
Unless you're gonna act on it  
Alex don't think that way  
Unless you're gonna change the way it is

Don't get sad, decide to stay  
You're heart is here, your head's away  
The more you cry, the more I know  
I'm certain that you'll let me go

I said oh my God I've got my heart in my hands  
Now my head is so heavy that I can't understand  
Singing oh my golly oh miss me oh my  
I'm afraid that the moon pulled you out with the tide

I said oh my God I've got my heart in my hands  
Now my head is so heavy that I can't understand  
Singing oh my golly oh miss me oh my  
I'm afraid that the moon pulled you out with the tide
