

## Back & Forth

Wild Child

Guess I wake up knew everytime I'd lose my mind?  
Going back and forth gotta keep it inside  
If I let this go would you be surprised  
Going back and forth gotta keep it inside  
Oh way over this I'm running I'll hide  
Going back and forth gotta keep it inside  
Said I never gave my all but I tried

Are we so far so far gone  
It felt so right and once again it's so long  
One more time I swear God dammit I'm gone  
All this back and forth all this leading me on

Yes I put up with you three too many times  
Going back and forth gotta keep it inside  
Could I break your heart before you touch mine  
Going back and forth gotta keep it inside  
Oh way over this you're wasting my time  
Going back and forth gotta keep it inside  
Act like giving me your all is a crime

Are we so far so far gone  
It felt so right and once again it's so long  
One more time I swear God dammit I'm gone  
All this back and forth all this leading me on

You're thinking I'll sit here watch you walk away  
Think maybe I'll change your mind or beg you to stay  
I never put up with anyone treating me this way  
You're not worth my time can't make up your mind  
Thinking I'll sit around and wait

Are we so far so far gone  
It felt so right and once again it's so long  
One more time I swear God dammit I'm gone  
All this back and forth all this leading me on
