

# Bridges Burning

Wild Child

Wait for me  
I need you to wait for me  
I need you to wait  
I know the bridge is burning fast

Baby please  
I need you to wait for me  
I want you to wait I know the bridge is burning fast

I know it's been too long  
The same old song for you to hear  
I don't want to say goodbye  
Know I've been gone when you needed me here  
Just thinking about the past  
Thought it would last  
Thought you'd be there in the end  
Know I've done wrong

Know I've been bad  
Just hoping all I put you through I'll mend

Wait for me  
I need you to wait for me  
I need you to wait  
I know the bridge is burning fast

Baby please  
I need you to wait for me  
I want you to wait for me I know the bridge is burning fast

Just maybe  
It'll be alright  
I'll learn my lessons and you'll be back by my side  
Until then  
Don't think I'm gone  
No matter how many hearts I break I'm alone

Wait for me  
I need you to wait for me  
I need you to wait  
I know the bridge is burning fast

Baby please  
I need you to wait for me  
I want you to wait for me I know the bridge is burning fast
