

Crazy Bird

Wild Child

I'll wait around for a day
This cord drawn woodshop haze
Sat in your mind I need the old

You stole my breath away
You swore to me you'd stay
I found something that I adore

Oh how, how it's supposed to go on
Not knowing if you
Bleed the way, I do
I do, well I did

Are your bags travellin' elsewhere
You need to know I'd like the phones
Rollin' out against the floor
And if your left for breaking to the little
Pieces kill no more, no more

Whisper the things we'd scream
Now kids let's not get mean
Cause I need your mind I need me yours

For walls of fancy friends
Don't leave me lyin' up there
Tied a notch now and that's enough
Well I'm glad, so am I

Let's make it from our cast
I chose the things that last
Let's teat it up here you and I

Oh how, how it's supposed to go on
Not knowing if you
Bleed the way, I do
I do, well I did

Are your bags travellin' elsewhere
You need to know I'd like the phones
Rollin' out against the floor
And if your left for breaking to the little
Pieces kill no more, no more

These fights sure do take the light outta me
But it's a secret I can tell you is I still do believe
I can promise now I'll always be careful with things

So just know that I'll expect it
If you ever do leave
Sweet Marie

I love your name
Oh babe
Can you turn your heart this way

Oh how, how it's supposed to go on
Not knowing if you

Bleed the way, I do
I do, well I did

Are your bags travellin' elsewhere
You need to know I'd like the phones
Rollin' out against the floor
And if your left for breaking to the little
Pieces kill no more, no more
