

## End of the World

Wild Child

Water's rising and it's freaking me out man  
You're all lying and it's freaking me out  
Poison fishes and they're freaking me out man  
They're so delicious and it's freaking me out

I can love you and everybody you know  
Since we're all going down  
I'm a face in the crowd and it's freaking me out

Bad choices and they're freaking me out man  
Mid coitus and you're freaking me out  
Masked strangers and they're freaking me out man  
I'm in danger and it's freaking me out

I can love you and everybody you know  
Since we're all going down  
I'm a face in the crowd and it's freaking me out  
I'm bleeding and it's  
Texas freezing and it's  
You're ambitious and it's  
Dirty dishes and it's

These conversations are just freaking me out man  
Your new injections are just freaking me out  
You're not complaining and it's freaking me out man  
You do pilates and it's freaking me out

I can love you and everybody you know  
Since we're all going down  
I'm a face in the crowd and it's freaking me out

I can love you and everybody you know  
Since we're all going down  
I'm a face in the crowd and it's freaking me out
