

Fools

Wild Child

Thinking that I might go crazy
How am I supposed to breathe now, baby?
You burn this whole thing just maybe

So you ask me how I'm on fire
All I do is turn around and smile
Baby girl not everyone can fly

But if you have to go I'll play the fool
But if you have to go I'll play the fool
But if you have to go I'll play the fool
It's all I know, it's all I know

Thinking that our time just run out
I can't believe we aren't in love now
You'd let me go but you're too damn proud

So you ask me how I'm on fire
All I do is turn around and smile
Baby girl not everyone can fly

But if you have to go I'll play the fool
But if you have to go I'll play the fool
But if you have to go I'll play the fool
It's all I know, it's all I know

But if you have to go I'll play the fool
But if you have to go I'll play the fool
But if you have to go I'll play the fool
It's all I know, it's all I know

But if you have to go I'll play the fool
But if you have to go I'll play the fool
But if you have to go I'll play the fool
It's all I know, it's all I know

But if you have to go I'll play the fool
But if you have to go I'll play the fool
But if you have to go I'll play the fool
It's all I know, it's all I know
