

## Going In

Wild Child

I ask for another way home  
You say there's just one way to go  
But I hope that isn't true

Looks like I'm living a lie  
Might say I did everything but try  
There's not much I didn't do

I'm going up and up and up and up  
I'm going in  
I'm going up and up and up and up  
I'm going in

I know I left you alone  
Can't say you could ever call me home  
Girl, I know how much it aches

I know there's more to this life  
Too many knots to untie  
But I know you got what it takes

I'm going up and up and up and up  
I'm going in  
I'm going up and up and up and up  
And going in

I know you're not alone  
So I'm letting it go  
There's so much I can't explain

You know that I love  
But it wasn't enough  
Still I'll see you all again

I'm going up and up and up and up  
I'm going in  
I'm going up and up and up and up  
I'm going in  
I'm going up and up and up and up  
I'm going in  
I'm going up and up and up and up  
I'm going in
