

Leave It Alone

Wild Child

Leave it alone
If you have to force it
It's not worth your time
Leave it alone
You go on your way darling I'll go mine
Leave it alone
You want to change me but you don't know how
Leave it alone
No use pretending we can go back now

Overdue
So tired when I think of you
I guess it's just the cards we drew
There is nothing here

Leave it alone
Nothing to fix
Now you can walk away
Leave it alone
Don't think there is anything that I can say
Leave it alone
You never wanted this thing anyhow
Leave it alone
No one would blame you for just walking out

Overdue
So tired when I think of you
I guess it's just the cards we drew
There is nothing here
Understand
We're betting on an empty hand
There's no one here to reprimand
Just disappear

Leave it alone
If you have to force it
It's not worth your time
Leave it alone
You go on your way darling I'll go mine

Leave it alone
Nothing to fix
Now you can walk away
Leave it alone
Don't think there is anything that I can say
Leave it alone
You never wanted this thing anyhow
Leave it alone
No use pretending we can go back now
Leave it alone
If you have to force it
It's not worth your time
Leave it alone
You go on your way darling I'll go mine
