

Meadows

Wild Child

Pale hands with shakey rings
Stale taste for finer things
Have you thought of what it really means now to let somebody in
If I said I'm ready now
Would you darling show me how
To blindly give it all out loud
Until I'm wearing thin

Could you rid your devils
Could you stay and settle down
Just to pass the time with me
Could you rid your devils
Run through fields and meadows
Does it scare you when you think, when you think

Low tide but rising fast
We'll all die so nothing lasts
All I know is that you make me laugh
Babe so I'll go down with you
If I say I'm willing now
Would you darling show me how
To make you smile from tucked inside the crowd
Like I'm singing right at you

Could you rid your devils
Could you stay and settle down
Just to pass the time with me
Could you rid your devils
Run through fields and meadows
Does it scare you when you think, when you think

Wake up
You know I saw you, I know now that I'm falling
You turn your back to me and spread this damn disease
Left all these questions in my head
Way down
I hit the damn ground
It burns because its so finished
You know I can't believe
I guess you felt the need
To set this fire to our bed

Could you rid your devils
Could you stay and settle down
Just to pass the time with me
Could you rid your devils
Run through fields and meadows
Does it scare you when you think, when you think
