Oklahoma

Wild Child

Say what you want, I can understand

So you say what you want, I can understand
if I can't hold you I'll just hold the sand
But I won't, I won't turn back time

Gonna give, gonna break, gonna make it right,
gonna tear down this whole ship tonight
But I won't, I won't let you fight

And don't let ghosts try to tell you how to live
And can't foget not to get more than you give

So this is it, I think I found myself the one
And if I'm wrong don't turn me right
And don't say anything out of spite
If this is it I hope we got time on our side
And if we fall then let us stay
I want my heart to keep its shape

So you say all the things that I wanna hear
And I wait all day just to have you near, but some nights
I think we might fall

Still I wait and you love try to hold me close
cause if time changes things it'll hurt us both
Darling oh, I always come when you call

And don't let ghosts try to tell you how to live
And can't foget not to get more than you give

So this is it, I think I found myself the one
And if I'm wrong don't turn me right
And don't say anything out of spite
If this is it I hope we got time on our side
And if we fall then let us stay
I want my heart to keep its shape

This is it, I think I found myself the one
And if I'm wrong don't turn me right
And don't say anything out of spite
If this is it I hope we got time on our side
And if we fall then let us stay
I want my heart to keep its shape
