

Sleeping In

Wild Child

I close my eyes and there you are
Like it's always been that way
I can't remember where it starts
But I can see the end of everyday
There's nothing like it in the world
The way you look across the room
I never felt like this before
There's everyone and then there's you
And then there's you

I could have held you all day long
I could have held you all day long
I could have held you all day long
But if I don't leave now
Baby I won't know how

It's almost more than I can take
The way you love me all the time
I never meant to fall this way
I always felt so left behind
It's not a thing you give away
The way I love you is in my bones
And even when you cannot stay
It never feels like I'm alone
Like I'm alone

I could have held you all day long
I could have held you all day long
I could have held you all day long
But if I don't leave now

Baby when it starts to rain
I can bring the sun again
One more minute here with you
I just want to take this in

I could have held you all day long
I could have held you all day long
I could have held you all day long
But if I don't leave now
Baby I won't know how
