

Think It Over

Wild Child

Well damn I think it's done
Take it back turn around now
Start all over again
He'll start to pack up
And she'll pretend she's sorry
Wait babe can't we be friends
She thinks that if she calls
She can always have him
Crawling back again
But darling this time
When I pick up the pieces
That will be the end

I've been waiting for you
You said please come over
I know I shouldn't so I
Wait wait think it over
He swears darling it's through
But looks over his shoulder
Maybe she loves him so we'll
Wait wait think it over
We'll think it over

Well damn I better run
Take it back turn around now
Start all over again
I'll make a clean break
And when he starts to miss me
Wait call where have you been
I know that if I fall
I can always have them
Crawling back again
But darling this time
When she picks up the pieces
That will be the end

I've been waiting for you
You said please come over
I know I shouldn't so I
Wait wait think it over
He swears darling it's through
But looks over his shoulder
Maybe she loves him so we'll
Wait wait think it over

So the story ends my dear
Exactly as it starts
You think we could still be friends
After you break my heart

I've been waiting for you
You said please come over
I know I shouldn't so I
Wait wait think it over
He swears darling it's through
But looks over his shoulder
Maybe she loves him so we'll

Wait wait think it over

I've been waiting for you
You said please come over
I know I shouldn't so I
Wait wait think it over
He swears darling it's through
But looks over his shoulder
Maybe she loves him so we'll
Wait wait think it over

I've been waiting for you
(I've been waiting for you)
I've been waiting for you
(I've been waiting for you)
I've been waiting for you
(I've been waiting for you)
Maybe she loves him so we'll
Wait wait think it over
