

## This Place

Wild Child

I bet you think that I love this place  
I bet you wish you could read my face  
I can't tell if what I'm losing now you can actually replace  
So I'll let my heart settle where my head lays

Maybe you feel like  
If only she knew  
(How I feel)  
Dying in this town  
If only she knew  
(How I feel)

If the tongue drinks down a day and wonders why they all taste  
the same  
How long can you  
Hide behind a cloud of doubt and still expect me to stay  
I'm still  
Waiting for you every night while you prepare to run away  
Can't say  
I'll be there when you fall each night if I can't have you ever  
y day

Maybe you feel like  
If only she knew  
(How I feel)  
Dying in this town  
If only she knew  
(How I feel)  
Maybe you feel like  
If only she knew  
(How I feel)

Maybe you feel like  
If only she knew  
(How I feel)  
Dying in this town  
If only she knew  
(How I feel)  
Maybe you feel like  
If only she knew  
(How I feel)
