

## Victim to Charm

Wild Child

Dear, don't be alarmed  
Cause I trace the freckles on your porcelain arm  
Did you ever think you'd be victim to charm  
So cheap and untrue

And how did you think you get off  
Pass me with a smile where you're walking your dog  
And now I can't sleep cause I know that you're gone  
And you know what you do

And dear did you know  
That our days were numbered a long time ago  
Can't turn back now  
Cause I swore it was done when you walked out the door  
Thinking I'd like  
To say goodbye to you just this once more  
But I know  
It wouldn't be the same as before

Boy, I hear she's the one  
Crazy how fast you knew once we were done  
And now that this speckle bird [?] started to run  
It won't ever come home

Tie myself to this room  
So I can return to my comfortable you  
Forget this whole town that reminds me of you  
And I won't go home

And dear did you know  
That our days were numbered a long time ago  
Can't turn back now  
Cause I swore it was done when you walked out the door  
Thinking I'd like  
To say goodbye to you just this once more  
But I know  
It wouldn't be the same as before

Ohhh, darling you know  
That I would come back  
If I could just let it go

So, I just pretend  
That we can be friends  
Because you did wrong  
And I'm alone

So now, I'll be alone  
Pack up these jealous things outside my door  
Forget what you did  
Cause I know that you're gone  
Not the same as before
