

Alien

Wild Nothing

Tomboy, my love
Wear me like a glove
You make me feel like an alien
You make me feel like an alien

We are dust above the Earth
Witnessing our birth
You make me feel like an alien
You make me feel like an alien

You're so pretty
Where did you come from?

You're so pretty

Where did you come from?

Tomboy, my love
Wear me like a glove
You make me feel like an alien
You make me feel like an alien

We are dust above the Earth
Witnessing our birth
You made me feel like an alien
You made me feel like an alien
