

Midnight Song

Wild Nothing

In my head you dance like curtains in the wind
You're my burden
I can't feel your heart
I've been gone
I can't release these sighs

You won't hear
You won't know
You won't ever know
Harden your heart

It was falling from the start
Though I tried I was always dead inside
Midnight song
Sing you to the moon
I am your quiet night
You were gone too soon

I can't feel your heart
I've been gone. I've been gone
I can't release these sighs
You won't hear. You won't know
