

Suburban Solutions

Wild Nothing

Wake up to a new life, a yard with a fence
And take a good look in the mirror, we spared no expense
White teeth, no circles under your eyes
The baby stopped crying, like we advertised

Take a deep breath
Suburban Solutions has your back
We've come to the end, put up your feet
Come to the end
Take a big bite
As much as you can fit
We've come to the end, put up your feet
Come to the end, come to the end

There's a small monthly payment, click here to apply
And change that pathetic excuse for what you call a life
But we love real people, real salt of the earth
And sign on the dotted line, darling, it's what you deserve

Take a deep breath
Suburban Solutions has your back
We've come to the end, put up your feet
Come to the end
Take a big bite
As much as you can fit
We've come to the end, put up your feet
Come to the end, come to the end

As much as you can fit
We've come to the end, put up your feet
Come to the end, come to the end
As much as you can fit
Come to the end, put up your feet
Suburban Solutions has your back
Come to the end, put up your feet
Come to the end, come to the end
Suburban Solutions has your back
Come to the end, put up your feet
Come to the end, come to the end
Suburban Solutions has your back
