

Getaway

Wild Party

We, we can make
Every day feel the same
Until our lives move on
We'll have this song
And they'll see
And they'll envy
Just how happy
We've become

Well the more I see is
The more I'm givin' up
Like it hurts to leave you
I never get enough
But everything I have
I getaway with that
Yeah I getaway with that

What's with all our friends
They just talk and spend
All their time workin'
Like they're mannequins
Our whole life
For a dollar sign
That will never make you whole

Well the more I see is
The more I'm givin' up
Like it hurts to leave you
I never get enough
But everything I have
I getaway with that
Yeah I getaway with that

I getaway every day
By living naturally
I'm giving thanks for the sake
Of getting everything I want
When I got everything I need

The more I'm giving up
I getaway with that

Well the more I see is
The more I'm givin' up
Like it hurts to leave you
I never get enough
But everything I have
I getaway with that
Yeah I getaway with that

I getaway with that
I getaway with that
