

If I Could Feel

Wild Party

They never said it
Just took the credit
Then built the machine to move faster
I bet, whoever did it
They'll never quit it
Unless they're all faced with disaster

It's con-cerning
That concerns me
It's dis-turbing
You disturb me

You ask if I'm alive
I look you in the eye
And see the way you feel inside
It would be nice if I could feel
It would be nice if I could feel anything
It would be nice if I could feel anything

They never read it
How could they get it
Enough to start moving at high speed
I bet, they don't forget it
And don't admit it
Until they see something like I see

It's con-cerning
That concerns me
It's dis-turbing
You disturb me

You ask if I'm alive
I look you in the eye
And see the way you feel inside
It would be nice if I could feel
It would be nice if I could feel anything
It would be nice if I could feel anything

Over the hill there's a way out
Past the boundaries that the mind believes
Are ways to reach across the other side
Hey is there anyone out there?
Hey is there anyone home

We'll let em spit it
Then watch em panic
Afraid we all see what they're after
I bet, they're gonna spill it
We're gonna kill it
And wait

You ask if I'm alive
I look you in the eye
And see the way you feel inside
It would be nice if I could feel
It would be nice if I could feel anything
It would be nice if I could feel anything
