

Nicely Done

Wild Party

We've got our thoughts perfecting words that you are soon to hear

With a brighter tone for elders, yeah, we'll make this sound sincere

Even when we're after trouble, we can be considerate

With a conscience for each other, all around we benefit

Begging to help you quit, wouldn't your mom insist
A painless way to solve indifference?

Everyone's confound to make it in this town
By taping up their frowns with new behavior
Make all of the sound you want, no one's around
Our friends are coming down, it's all familiar

We speak a language no one's heard and use a Mayan calendar
Our method's undiscovered and this township's still preserved
We wonder once our cover's blown if all our work will spill
Through reservoirs and jungles from Lawrence to Brazil

Begging to help you quit, wouldn't your mom insist
It's time you compensate for what you missed?

Everyone's confound to make it in this town
By taping up their frowns with new behavior
Make all of the sound you want, no one's around
Our friends are coming down, it's all familiar

There's things in life I'll never know
There's things I'll never show

Begging to help you quit, wouldn't your mom insist?
It's time you compensate for what you missed
And begging to help you quit, wouldn't your mom insist?
It's time to compensate for what you've gotta compensate for what you missed

Everyone's confound to make it in this town
By taping up their frowns with new behavior
Make all of the sound you want, no one's around
Our friends are coming down, it's all familiar

Everyone's confound to make it in this town
Start taking off your crowns, it's too familiar
You're too familiar
