

## Putrid Hogs

Wild Party

Hey let me get this straight, huh  
Wait lemme think about it  
You wanna hear this crisp, woo  
Well lemme give it to you  
Harmony sweet harmony love  
Part of whatcha need is each other  
For the company sweet company, uh  
Nice to meet ya

Maybe we should move  
To that doorway  
'Cause were out, standing in the rain  
Out there's a line of raging cars  
And we're this putrid group of hogs  
Just eating every day repeating  
When you think about it

Hey isn't life just great (yeah its great)  
I'd take a bullet for ya  
If we could just relate, woo  
Instead of fighting over  
Policy cheap policy, that  
Never seems to change for the better  
Of the country sweet country  
Uh, I beseech ya

Maybe we should move  
To that doorway  
'Cause were out, standing in the rain  
Out there's a line of raging cars  
And we're this putrid group of hogs  
Just eating every day repeating  
When you think about it

I'm talking bout loathing the fortress, huh  
I'm singing bout human decay

Maybe we should move  
To that doorway  
'Cause were out, standing in the rain  
Out there's a line of raging cars  
And we're this putrid group of hogs  
Just eating every day repeating  
When you think about it  
Yeah when you think about it  
So what'd you think about it?
