

A Week Ago

Wild Rivers

Two-tone Chevy, we were getting gone
You were still by my side
Windows down, we were singing our song
Just a week ago tonight

Living on the wrong side of lonesome
Heading for the state line
Cracks in the leather and the radio's gone
Carolina on my mind

All this time it took to make it grow
All I'm holding back, I guess you'd know
I wish it was a week ago

(Yeah!)

Yeah, if I could get this Chevy up to 88
I'd take it back in time
I know exactly what I'd tell myself
And boy I could set it right
Seven little days can feel so long
Waiting on another chance
I'm looking back through a telescope
I'ma take a second glance

All this time it took to make it grow
All I'm holding back
I guess you'd know
That's what I get for letting go
I wish it was a week ago

Two-tone Chevy, we were getting gone
We were still on the road
Windows down, we were singing our song
Saying I wish it was a week ago

Wish it was a week ago
Wish it was a week ago
Wish it was a week ago
I wish it was a week ago

I just wish, I just wish
I just wish, I just wish
I wish it was a week ago
I just wish, I just wish
I just wish, I just wish
I wish it was a week ago
