

Are we just back to the bottom?
Tell myself no more then it's, "Oh well"
"Smoke em if you got em"
We were on track
Til we lost it
But that's a hard pill to swallow so I keep it in my back pocket

We need to talk
Four words no one wants to hear but I kinda knew it
Ready or not
Don't lie if you're gonna do it, do it

Please don't
Give a little bit to feed my ego
You're saving me a seat at the casino
And I know I should go but I don't
Every time I wanna see you
I'm givin' in, you know I've got a sweet tooth
Little hit you know what that'll lead to
Yeah, I know I'm just waiting
To cave in
To cave in

If you're out of love just say it
And if you know you've had enough don't fake it
Quit waiting

Please don't
Give a little bit to feed my ego
You're saving me a seat at the casino
And I know I should go but I don't
Every time I wanna see you
I'm givin' in, you know I've got a sweet tooth
Little hit you know what that'll lead to
Yeah, you know I'm just waiting
To cave in
To cave in
To cave in
To cave in

We need to talk
Four words no one wants to hear but I kinda knew it
Ready or not
Don't lie if you're gonna do it, do it

Please don't
Give a little bit to feed my ego
You're saving me a seat at the casino
And I know I should go but I don't
Every time I wanna see you
I'm givin' in, you know I've got a sweet tooth
