

## Dance

Wild Rivers

It's late, it's last call  
And the DJ's running out of material  
My legs are tired but I don't want to go  
'Cause we keep getting closer  
We're tearing up the floor  
And all our friends are drifting to the door

But we could stay and dance a little more  
We could stay and dance a little more

Move like a matador  
Smile like you're keeping a secret  
And I wanna know you more  
But I'm trying to play it cool  
Losing all composure while I'm dying to read your page  
There's a hundred things I wanna say

But we could stay and dance a little more  
We could stay and dance a little more  
We could stay and dance a little more  
A little more

It's all we ever do  
(All we ever do)  
All we do is spin around  
All we do is spin around  
All we do is spin around  
Spin around, spin around

All we do is spin around  
All we do is spin around  
All we do is spin around  
Spin around, spin around
