

# Everywhere I Go

Wild Rivers

I keep it pretty close to the chest  
Like you never left  
I do my best  
Till someone makes a joke in a cab  
That I'd know you'd laugh at  
It takes me back

There you go in my mind  
Another place, another time  
Showing up as you please  
Come as quick as you leave

And now you feel like a melody I kinda wish I wrote  
I swear that I'm almost hearing you, yeah, even when I don't  
You find a way to stay next to me, in my car and in my clothes  
In my blood and in my bones, yeah, you're everywhere I go  
You're everywhere I go

Remember you were moving me in  
It was in the spring, now I'm moving out  
Looking back I feel like a kid  
Yeah, I kinda wish you could see me now

There you go in my mind  
Another place, another time  
Trying not to play that song  
Hard enough moving on

And now you feel like a melody I kinda wish I wrote  
I swear that I'm almost hearing you, yeah, even when I don't  
You find a way to stay next to me, in my car and in my clothes  
In my blood and in my bones, yeah, you're everywhere I go

I think it's only a memory, if you never let it go  
I'd never make you an enemy, not even with your ghost  
I never said what you meant to me, I'm hoping that you know  
You're in my blood and in my bones, yeah, you're everywhere I go  
Go  
Go  
Go  
You're everywhere I go  
Go  
Go  
Go

And now you feel like a melody I kinda wish I wrote  
I swear that I'm almost hearing you, yeah, even when I don't  
You find a way to stay next to me, in my car and in my clothes  
You're in my blood and in my bones, yeah, you're everywhere I go

Go  
Go  
Go  
You're everywhere I go  
Go  
Go
