

The sweater on your bedroom floor  
You can take that  
You don't want my love no more  
Honey I can shake that

I come you go  
Back around, back around  
I see your ghost on a train downtown  
Chasing it out, but we go way back

It's just a baseball cap, I ain't even missing  
Or a Springsteen track, I don't listen  
And the way I act like I don't go thinking but I do, I do  
Just an old habit, I don't gotta kick  
Or all your best friends' pictures, I don't check em  
Cause you look so different like you don't go thinking  
But I do, I do

Now I'm driving by the place we met  
Could you go there?  
Seems like we're getting on  
I ain't getting nowhere

I come you go  
Back around, back around  
I see you out at bar downtown  
And now you wanna talk?  
Babe I don't care

It's just a baseball cap, I ain't even missing  
Or a Springsteen track, I don't listen  
And the way I act like I don't go thinking but I do, I do  
Just an old habit, I don't gotta kick  
Or all your best friends' pictures, I don't check em  
Cause you look so different like you don't go thinking  
But I do, I do

I do, I do...

Now I come you go, back around back around  
I see you out in a bar downtown  
But you look so different like you don't go thinking but I do  
Oh, I do

It's just a baseball cap, I ain't even missing  
Or a Springsteen track, I don't listen  
And the way I act like I don't go thinking but I do, I do  
Just an old habit, I don't gotta kick  
Or all your best friends' pictures, I don't check em  
Cause you look so different like you don't go thinking  
But I do, I do
