

## More Or Less

Wild Rivers

First school, drove right past it  
That car was automatic  
At the edge of one age  
And the radio range  
Something cutting through the static

And oh, all the other ways  
Try to figure out on your own time  
Oh, falling out of place  
Only catch it in your alone time

The more I see, the less I know about it  
The more I see, the less I know about it

That best friend you had for ten years  
That video store just disappeared  
First person that you loved  
Last time you used algebra  
Guess some things gotta end here

And oh, all the other ways  
Trying to hold your breath on a good thing  
Oh, falling out of place  
Thinking that you're not but you should be

The more I see the less I know about it  
The more I see the less I know about it  
The more I see the less I know  
The more I see the less I know  
The more I see the less I know about it

The more I see the less I know  
The more I see the less I know  
The more I see the less I know about it
