

Never Better

Wild Rivers

Wake up, leave out the back
Sneaking in late, heading out early
Hold up, cover our tracks
Acting like kids, but closer to 30

This escalated
'Cause one time turned into ten
Never again, 'til we get lonely
You've got a side of the bed
But with all our friends
Pretend you don't know me
It's complicated
I love it, I hate it

Are we both out of our minds
Walking a line we said we wouldn't cross
Head first into disaster
Still, if you ask me how I'm holding up
I'll say, "Never better"

Come over, nobody's home
I know that it's wrong
We always go right back
We said, "Never again"
Tell all our friends
"No. It's not like that"
Now we're naked
It's still complicated

Are we both out of our minds
Walking a line we said we wouldn't cross
Head first into disaster
Still, if you ask me how I'm holding up
I'll say, "Never better"

Now we took it too far
So, what's the harm if it's already done?
Head first into disaster
Still if you asked me should we give this up
I'd say, "Never"

'Cause it's never better
It's never better

Wake up, leave out the back
Sneaking in late, heading out early
