

## Safe Flight

Wild Rivers

Love don't keep  
Sitting on runways  
Waiting on storm breaks  
Signalling back and forth

Hundred feet  
Over the tropics  
We're in the cockpit  
Trying to stay the course

And we fought  
'Til it came down on me enough to make my knees soft  
And you poured over onto me just like an eavestrough  
That filled up way too fast to hold

Hearts don't keep,  
Well in a suitcase  
We're tangoing two-ways  
Dancing 'round where we stand

Hotel sleeps  
Cold in November  
Holding an ember  
Looking for a place to land

And we fought  
'Til it came down on me enough to make my knees soft  
And you poured over onto me just like an eavestrough  
That filled up way too fast to hold, oh

If we're gonna take time  
If it ain't a straight line  
We're playing for the same side  
Hope you have a safe flight  
And if we're gonna go there  
I don't even know where  
Babe you were the best one  
I can catch the next one

If we're gonna take time  
If it ain't a straight line  
We're playing for the same side

Hope you have a safe flight  
And if we're gonna go there  
I don't even know where  
Babe you were the best one  
I can catch the next one

Have a safe flight
