

Simp Song

Wild Rivers

I see you on the call display
It's not like you to talk this late
In a costume from three years ago you smile

I haven't heard your voice in months
I don't know if you're with someone
You ask me, "Can you talk me through the night?"

Any way you want me, you got me
Any way you want me, you got me
Any way you want me

Thinking on a memory
December it was late
You brought me to a party that I hate

A sweater that I'd never wear
Said, "Try it, all my friends are there"
And I don't stand between you and your way

'Cause any way you want me, you got me
Any way you want me, you got me
Any way you want me

Now in the morning, light without warning
You reach up and sing can we go slowly

I tell you any way you want me
Any way you want me, you got me
You got me any way you want me
Any way you want me, you got me

You got me, any way you want
I said, any way you want me, you got me
I said, any way you want me, you got me
Any way you want me, you got me
