

Untouchable

Wild Rivers

Hold you by a thread
That's running through your head
And it's spinning over
Can we get closer now

It's rolling down your neck
I know you're not your best
Catch you stuck in trances
Your eye dances around

Three words you stole
No truth untold
Two parts, one whole
Untouchable

You told me something else
Can't put it on the shelf
By the blackout curtains
We talk in circles around

You push me out the way
Unsteady but I stay
Honey two can play this
But you're my favourite still

Three words you stole
No truth untold
Two parts, one whole
Untouchable
