

## Get It Back

Wilder Woods

Two hearts always break in a crooked line  
You can say you're sorry but it still hurts every time  
They keep saying, "Son, it'll be alright"  
But hands on the clock and tears on the page don't lie

Cause the drugs don't work  
When you feel this bad  
There's no lighthouse in the distance  
When you're this far out from home

I wish I would've known  
I wish I would have known that  
When you give your heart to someone  
You might never get it back  
I wish I would've known  
I wish I would have known that  
When you give your heart to someone  
You might never get it, never get it back

Two smiles stay the same but a picture hides  
No postcard from the future that could ever change your mind  
They keep saying, "Girl, just live your life"  
But just because they say it doesn't mean that they are right

You wish I would've known  
You wish I would have known that  
When you give your heart to someone  
You might never get it back  
You wish I would've known  
You wish I would have known that  
When you give your heart to someone  
You might never get it, never get it back...

Cause the time will come  
When the lights go down  
And the drugs won't work  
And the silence isn't peaceful  
It reminds you that you're alone

I wish I would've known  
I wish I would have known that  
When you give your heart to someone  
You might never get it back  
I wish I would've known  
I wish I would have known that  
When you give your heart to someone  
You might never get it, never get it back...
