

# Wild Fire

Wilder Woods

If you could see you from where I'm standing  
Then you'd never look away  
Then you could see you had the upper hand in  
All these cards that you never played

Standing out knee deep in the water  
Waiting on a wave that never breaks

I wanna see all of the light you save  
Shine like a diamond  
So bright, and so unafraid  
Out from the wreckage you run  
Like the bulls in Spain  
Shine like a diamond so bright  
We could find our way  
You're the wild fire  
You're the wild fire

It's funny how the smallest thing could start it  
Just a little spark that floats away  
You don't have to worry 'bout where it landed  
Leave it to the wind to make a flame

'Cause everybody wants some of your magic  
Everybody's waitin' on a taste

I wanna see all of the light you save  
Shine like a diamond  
So bright, and so unafraid  
Out from the wreckage you run  
Like the bulls in Spain  
Shine like a diamond so bright  
We could find our way  
'Cause you're the wild fire  
You're the wild fire

'Cause I ain't scared of who you are in the dark  
What you've locked away so deep down in your heart  
All I want is everything that you are  
Start with anything  
Show me everything

I wanna see all of the light you save  
Shine like a diamond  
So bright, and so unafraid  
Out from the wreckage you run  
Like the bulls in Spain  
Shine like a diamond so bright  
We could find our way  
'Cause you're the wild fire  
Yeah, you're the wild fire  
Yeah, you're the wild fire
