

After All

Wilderado

After all
Feeling like I'm headed towards the break of dawn
Does anybody wanna see the sun again?
Does anybody wanna see the sun again?

Waterfall
I'm feeling bad
Headed for another season
Down the hall and in the bed
Dying for a better reason
Like an old cigarette
I'm hangin' from my mouth again
Look at that cigarette
It's burning from the other end

After all
Feeling like I'm headed towards the break of dawn
Does anybody wanna see the sun again?
Does anybody wanna see the sun again?

Summertime
I'm sleeping bad
There's magic in what I've been drinking
Fireflies are coming back
And asking me what I've been thinking
Like my own silhouette
I'm backing up the walls again
Look at that silhouette
Just waiting for the day to end

After all
Feeling like I'm headed towards the break of dawn
Does anybody wanna see the sun again?
Does anybody wanna see the sun again?

Anybody wanna see the sun?
Anybody wanna see the sun?
Anybody wanna see the sun?

After all
Feeling like I'm headed towards the break of dawn
Does anybody wanna see the sun again?
Does anybody wanna see the sun again?
