

## Help Me Down

Wilderado

I wish I had a stone  
To throw at something real  
A treasure of my own so I could feel  
I dropped an anchor in the sand  
And watched it drag on through the sea  
The shackles are off my hand but I ain't free

It's such a lovely shade of blue

Help me down, don't pick me up  
Give me something that I can touch  
Just a way to hear I've loved you all along

The summer came in fast  
But it hasn't learned to last  
It came to town just to turn you brown then it passed  
Now I'm freezing in my car  
As I'm driving under the stars  
I've been thinking of you like I tend to do in the dark

I guess I never learned to choose

Help me down, don't pick me up  
Give me something that I can touch  
Just a way to hear I've loved you all along  
Help me down, don't pick me up  
Give my hands a bit of luck  
Just a way to hear I'll love you while you're gone

Help me down, don't pick me up  
Give me something that I can touch  
Just a way to hear I've loved you all along  
Help me down, don't pick me up  
Give my hands a bit of luck  
Just a way to hear I'll love you while you're gone  
I need a way to hear I'll love you while you're gone
