

# Higher Than Most

Wilderado

Passing over the house when I'm back  
It gets hard to stop when the feeling gets bad  
Fall in the dust when the falling is right  
I've fallen enough I don't need it this time

Heartache don't lie  
I'm hangin' all my notes on the walls in the night  
I'm toeing no line  
I'm just higher than most

I'm fine on my own  
Seasons alone  
If I find the wrong luck  
I just pass it along  
I don't want you  
I don't need you  
'Til I'm stuck on the side of the road  
If I'm ever lonely  
I get higher than most

Looking up and it's looking alright  
I'm looking for nothing and holding it tight  
Taking my love and she's making it sound  
I'm calling her up and she's calming me down

Pardon my eyes  
They never learned they gotta keep it inside  
Everyone lies  
I'm just lying the most

I'm fine on my own  
Seasons alone  
If I find the wrong luck  
I just pass it along  
I don't want you  
I don't need you  
'Til I'm stuck on the side of the road  
If I'm ever lonely  
I get higher than most

I want you  
I need you  
But I'm stuck on the side of the road  
If I'm ever lonely  
I get higher than most
