

# Waiting On You

Wilderado

Tell me I'm awake  
Tell me I'm twenty-two  
Tell me I'm the reason that you dropped out of school  
I'm a little certain that I'm losing my cool  
A summer in my city oughta boost my mood

I'm on the outside  
Living on my own time  
Waiting on you

Drive me up the road  
Play me every song  
Tell me I've been writing all the words on my own  
I found a way to summarize and make it sound good  
So take me to my city, to my neighborhood  
A summer in my city always does what it should

I'm on the outside  
Living on my own time  
Waiting on you

Daylight takes me straight to afternoon  
I'm driving all night cause it's what I said I'd do  
I wanna make it to my city and lie down next to you  
I'm getting tired of being patient

So give me everything that I thought I missed  
Everything that I thought I missed

I'm on the outside  
Living on my own time  
Waiting on you  
Waiting on you

I'm on the outside  
Waiting on you  
Waiting on you  
Waiting on you  
Waiting on you
