## Wildlife

These days got me tired  
Sun ain't shinin'  
I could sleep for miles in this bed  
Summer has been callin' out  
For a while  
We can raise a glass in style

And it's one step home  
One step home  
And it's one step home

Euphoria  
Dig your heart like a tunnel  
Stay the same and simple  
I cannot appreciate the man  
You've come to follow  
Euphoria  
Oh, oh, oh

We fly off the handle  
Bars and alleys  
Fightin' for our spirit to get free  
No one's here for long  
I got speakers  
We got speakers louder  
And so clear

And it's one step home  
One step home  
And it's one step home

Euphoria  
Dig your heart like a tunnel  
Stay the same and simple  
I cannot appreciate the man  
You've come to follow  
Euphoria  
Oh, oh, oh

Euphoria  
Oh, oh, oh

One step home  
One step home  
One step home

Yeah  
Euphoria  
Dig your heart like a tunnel  
Stay the same and simple  
I cannot appreciate the man  
You've come to follow  
Euphoria  
Oh, oh, oh
