

(I love the way I)
I've been following your string
(I love the way I)
We've only been pretending
(I love the way I)
It ain't over, over
(I love the way I)
Ch-ch-changes, they are coming

Time to lift the times around me
Pack me on the back and spin
Circles all around the room as
Falling laughing loudly
You leave us hanging by a thread, by a thread

Time raise a fist for you
And lie sinking in the blue
We are reaching back and
Time will never wait for us again

(I love the way I)
As a waive that's crashing in
(I love the way I)
And rolling back again
(I love)
The night time is blinding
(I love the way I)
There's a shadow in the morning

Time to lift the times around me
Pack me on the back and spin
Circles all around the room as
Falling laughing loudly
You leave us hanging by a thread, by a thread

Time raise a fist for you
And lie sinking in the blue
We are reaching back and
Time will never wait for us again

Time will never wait for us again
Time will never wait for us again
You leave us hanging
You leave us hanging

Time raise a fist for you
And lie sinking in the blue
We are reaching back and
Time will never wait for us again
