

## Dreaming Doll

Wildpath

Looking for you, lost, in my painful mind. Forever dwelling in  
time. I have to find a way to touch my future.  
Deep inside, (come to me now,)  
(Within your soul,) In my soul,  
(Don't be afraid,) Let me hear your voice! (You'll have to hear  
my voice)  
Led by the strings of my fantasy  
I'm wandering the world through the eyes of an aimless doll  
Lost Underneath  
Should I trust you now that my faith is strong? May I reach you  
someday?  
Under a faint moonlight I go... Half closed eyes...  
Deep inside, (come to me now,)  
(Within your soul,) In my soul,  
(Don't be afraid,) Let me hear your voice! (You'll have to hear  
my voice)  
(By my side  
Through the night  
We'll be as one  
We'll be as one)  
I've been looking for you! (To the end of the world,)  
And I still keep faith... still Go... keep On... Forever more!  
(Forever in your heart,)  
Feeling through eternity  
I've been looking for you! (To the end of the world,)  
And I still keep faith... still Go... keep On... Forever more!  
(Forever in your heart,)  
Feeling through eternity  
Led by the strings of my fantasy  
I'm wandering the world through the eyes of an aimless doll  
Lost Underneath
