

Breathless

Wildways

My calendar says I don't have enough time
I can't read my mind, no idea who am I?
I've seen the people kill themselves
I've seen they lost inside their heads
This monster can grab anyone
Only the dream can help

I run away for something more, I run away, please close the door
I don't need air when something takes my breath away
I'm still the kid I used to be, dreaming is right up my street
I don't need air when something takes my breath away
I don't need air when something takes my breath away
I don't need air when something takes my breath away

I gotta focus on the things really worth it
And now all pain is gone, I gotta count on myself
First day I couldn't believe it
Next week I had to admit it
Last couple days we've spent together
But nothing is forever

I run away for something more, I run away, please close the door
I don't need air when something takes my breath away
I'm still the kid I used to be, dreaming is right up my street
I don't need air when something takes my breath away
I don't need air when something takes my breath away
I don't need air when something takes my breath away

Смотри мечтам в глаза, им есть что сказать
Им есть что сказать
Смотри мечтам в глаза, им есть что сказать
Смотри мечтам в глаза, им есть что сказать
Смотри мечтам в глаза, им есть что сказать
Смотри мечтам в глаза

I run away for something more, I run away, please close the door
I don't need air when something takes my breath away
I'm still the kid I used to be, dreaming is right up my street
I don't need air when something takes my breath away
I don't need air when something takes my breath away
