

## Illusions & Mirrors

Wildways

That's my face and my eyes  
I feel I'm falling down  
What I can? What I could?  
Looking at the ground  
Everything everyone try to hurt me now  
And your words all these words don't come easy no

Flying in the air I try to find someone like me  
Who already suffers while full of fear  
Who already stands while full of despair  
Could you check my heartbeat?

Up, upear  
Into the air  
Like we don't like we don't don't care  
Up, upear  
Into the air  
Like we don't like we don't don't care

The world is against me  
I've created  
I will fix and I will stand  
(Will stand)  
The world is against me  
I've created  
I will fix and I will stand

Come to me little closer when you're ready boy  
Let me hear let me know what are you afraid of?  
Right or left left or right  
You have one choice  
Take the time to make the right decision

Flying in the air I try to find someone like me  
Who already suffers while full of fear  
Who already stands while full of despair  
Could you check my heartbeat?

The world is against me  
I've created  
I will fix and I will stand  
(Will stand)  
The world is against me  
I've created  
I will fix and I will stand  
And I will stand

This world is against me  
But no one couldn't stop me  
If I would like to escape from that hole  
I would like to escape  
I would like to escape

We cry and we just have no thoughts  
What's next? How will we live?  
Just go despite despite the fear just go  
We cry and we just have no thoughts

What's next? How will we live?  
Just go despite despite the fear just go

This world is against me  
But no one couldn't stop me  
If I would like to escape from that hole  
I would like to escape  
I would like to escape

We cry and we just have no thoughts  
What's next? How will we live?  
Just go despite despite the fear just go  
We cry and we just have no thoughts  
What's next? How will we live?  
Just go despite the fear just go
