

Princess

Wildways

I feel your touch I feel your love
I feel your touch I feel your love
I feel your touch I feel your love
I feel your touch I feel your love

I'm gonna try to forget the pictures
That's remission
I'm gonna try to forget it
That's my life transition
You are hurt
You are pain
Wtf? All the same
I can't sleep because your whisper in my ears
I hate it
And I can't escape from this room
Fucking tired to stay there
I hate this fucking place
I can't breathe
All the same
So I've been there enough

And when I look in the mirror...

So let's remember
How we've lost everything we loved
I don't know when I will see you
But I will try to remember
How much we've lost

I wanna try to forget your smell
But it's unreal
I wanna feel one more touch
Oh God it's for real
You are hurt
You are pain
Wtf? All the same
You know actually I was just too good for you
Your momma told you that
And my dad told me that
So what's the plan you had?
We both just see the end
However thanks for all
The memories in my head

Please don't try
Don't talk with me in my nightmares
I can hear your voice again no

So let's remember
How we've lost everything we loved
I don't know when I will see you
But I will try to remember
How much we've lost

Let's remember all the moments like in a movie
That's our story
It is pretty fucked that we don't try to forget

We're not together but we still want to get back
And now I feel the sky
I want to hear goodbye
I wanna to get out
And now I'm down and out
Ha yeah I'm just down and out
Please babe you've got to pray for us

Please don't try
Don't talk with me in my nightmares
You've got to pray for us
You've got to pray for us
